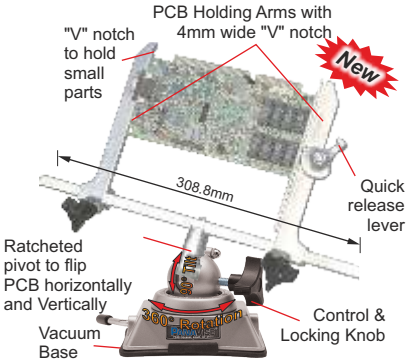
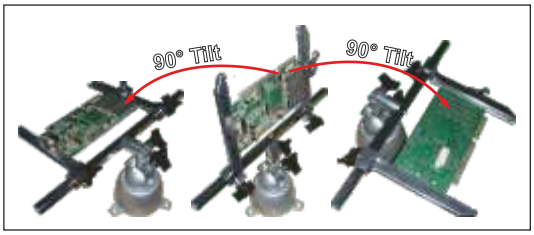
IPV380-315 | **IPV380-315 Tilt, Turn and Rotate Circuit Board Holder**

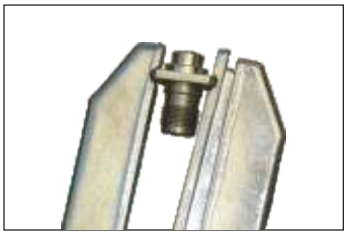
Tilts 90°, Turns 360° and Rotates 360° 3-plane movements to position PCBs

- The base of the PCB holder can be turned & rotated 360° and can be tilted 90° to have comfortable positioning of the PCB with 1 knob control.
- The PCB can be tilted up to 180° or any angle in between for having every access (like front, back or at any angle viewing) of the PCB.
- It has two moveable arms and have “V” shaped grooves which securely hold the board edges.
- Holds circuit boards up to 304mm wide.
- 1 arm is spring tensioned to equalize holding pressure
- Vacuum base for portable applications. Simply flip the lever to "activate" the rubber pad & attach the unit to any smooth, non-porous flat surface
- Pad footprint : 130.2mm x108mm • Weight: < 1.5 kg
- Control knob and exclusive "split-ball" locks head firmly in place

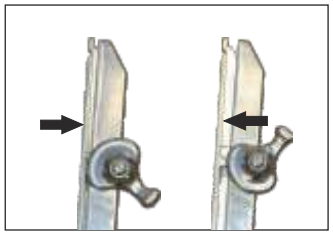




The Circuit Board can be tilted up to 180° for front and back viewing. The operator can adjust the angle as per his comfort for easy working.



There are grooves at the tips that can also be used to hold small objects like connectors



one arm is spring loaded, operated thru a lever for quick insertion and removal of PCBs

Goldtool Taiwan P/N: GMT-001 | **Electronic Measuring Tape**

Digital readout of the measured value

- Length: 5 meters
- Minimal Graduation: 1mm
- Weight: 230 gram
- Power Supply: 1 battery 3V CR-1/3N (not supplied)
- 19mm wide spring steel tape
- HOLD function (for holding display readout)
- Locking mechanism and hook on tape's end allows measurement by one person
- Convenient due to digital readouts in cm. & inches on display
- Tape profile & width ensure stability of deployed long tape section

13 Pieces Electronic Wrench Set | **Goldtool Taiwan P/N: GWH-465**

- Set of 13 combination wrenches
- Open and closed ended
- Sizes include 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 18, 19mm
