

Normally immediate delivery • Spare Heating Element & Motor available

Suitable for drying, curing & ageing applications in industry and research institutes.
Designed for high efficiency and safe working • Has superior Temperature uniformity

Digital Control Panel

Viewing Window with toughened glass

Sensor for precise control

Fan for even heat circulation

Sealing Gasket to keep proper heat temperature in the oven

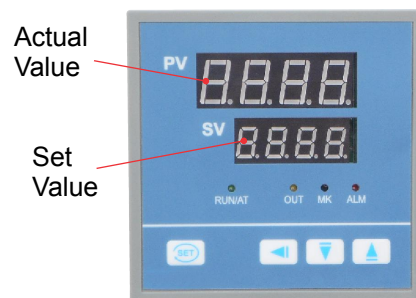

Rust proof removable stainless steel shelves

Rust proof stainless steel inside Chamber

Technical Specifications:

- Input Power : 230 V, 50 Hz, 500 Watt
- Internal Dimensions (mm) : 300Wx300Dx270H (approx.)
- Compartment : 2
- Temperature Range : Room Temperature to 250°C
- Temperature Control : $\pm 5^{\circ}\text{C}$

Actual Value

Set Value

Control Panel

Features:

- Precise PID Controller for Temperature
- Inner Chamber is of Stainless Steel
- Wide View type Glass Window provided
- Fast Temperature Recovery after Door Opening
- Uniform heat distribution thru Forced-Air convection
- Over temperature indication alarm

Applications:

- Component and PCB pre-baking before soldering
- Moisture removal from electronic assemblies
- Curing adhesives and epoxies
- Widely applicable for drying and sterilization in fields of bio-chemistry, agriculture and scientific research and environment protection.
