

Precision Cutting Plier (equivalent to PIERGIACOMI TR-25-EC)

P/N: MN-25C

- Cutting capacity: 1.3mm dia copper wire
 - Comfortable TPR coated grip for fatigue-free working
 - Light weighted, compact and easy to handle
 - Material: SK5 Steel
 - Length: 132mm (approx.)
 - Equipped with a return spring feature.
- Return spring increases ease of cutting with an automatic opening of jaws

Return Spring

Precision Knife with Aluminium Handle

P/N: GKN-014

- Blades are made from surgical steel and honed for fine cutting
- 4 Jaws Chuck holds the blade securely
- Supplied with 10 spare blades
- High impact plastic safety cap

Spare Blade Set

Precision Cutting Plier (equivalent to HAKKO CHP-170)

P/N: CHP-170

- Cutting capacity: 1.3mm dia copper wire
 - Comfortable TPR coated grip for fatigue-free working
 - Light weighted, easy to handle
 - Material: SK5 Steel
 - Length: 132mm (approx.)
 - Equipped with a return spring feature.
- Return spring increases ease of cutting with an automatic opening of jaws

Return Spring

Pre-Cut Cleaning Sponge (55 x 70mm)

P/N: ICS-5570

- Replacement sponges for soldering stations
- Cleans surface oxidation from soldering tips
- Made from natural cellulose
- Does not stick on the soldering tips
- Size: 55 x 70 mm
- High temperature resistant

How to use these Cleaning Sponge:

- Use moist Cleaning Sponge not wet.
- Dip the Sponge in water and squeeze it maximum to achieve moist sponge.
- Only moist sponge cleans the soldering tips throughly.
- Excess water in the sponge will damage the soldering tips

80 Watt Hot Melt Glue Gun P/N: GFH-190B

- Heat-up time: 3-5 Minutes
- Flow of glue: 14~16 grams per minutes
- Input Supply: 230VAC
- Power: 15 ~ 80 Watt
- Supplied with 1 Glue stick

Glue Sticks (10 pcs/pack) are available, please order P/N: GFH-205/10

Tip Activator P/N: 51303199

for prolonging the life of Soldering Tips

- Regular use will prolong the life of Soldering Tips.
- It is compatible with leadfree and non-leadfree solders
- Rotate the hot soldering tip on solid paste surface for regeneration.

Note: There is no shelf life for this

Desoldering Pump

P/N: 8PK-366NA

- Piston has double sealing for higher vacuum
- Suction capacity: 30cm-Hg
- Anti-rust long lasting spring
- Length: 205mm

Dry Metal Wool type Tip Cleaner for Soldering Tips

P/N: ISTC-1615

This Solder Tip Cleaner is perfect tool for cleaning the hot soldering tips without decreasing the temperature of soldering tip while cleaning, as happens in normally while cleaning with wet sponges

- Made from brass wire and comes with a convenient holder for easy use.
- It features low abrasive brass wire which helps to increase the life of soldering tips.

How to use

- Insert the hot soldering tip into the "golden curls" with a repeated (if necessary) twisting motion and take it back. The soldering tip will be bright, shiny, and ready for desired soldering results.
