2-Operators powerful Fumes Extraction Air Purifier Model FumePRO201-75LC

Couple of 100's (in repeat orders) working reliably all over India for the last many years

3-Stage Filters for 99.97% fumes Air purification has silent operation with low noise < 60 dBA Reliable and powerful brushless Turbine Ready-to-use type

- Rigid Gooseneck Arms can be positioned anywhere on table and will stay in same place
- Burn-proof type Fume Air Purifier Hoods
- No Plumbing required just position on or under the Table as needed
- System Choke Alarm: When display shows circular movement clockwise plus OFF and system beeps, it means any of Filters needs replacement
- Fumes Air Purification during hand soldering on PCB & Solder Pot tinning

Scope of Supply
- 1xMain Fumes Extraction Air Purifier unit
- 2xExtraction Arms (75mm dia, 1.2 meter long)
- 2xRound Fume Absorbing Hoods
- 1xSpeed Control Regulator
- 2xSpare Pre-Filters

Specifications
- Input Power Supply: 230V/50Hz, 250W
- No of Workplaces: 2
- Stationary Pressure: 3000 Pa
- Maximum Airflow Rate: 240m³/h
- Filtering Efficiency (0.3μm): 99.97%
- Noise Level: <60dB
- Dimension (LxWxH) (approx): 470x230x500mm

Warranty is 12 months from the date of invoice. It excludes all consumable parts as Filters, Extraction Arms and Hoods shown trademarks are property of their respective owners.

2-Operators powerful Fumes Extraction Air Purifier Model FumePRO201-75LC
Couple of 100’s (in repeat orders) working reliably all over India for the last many years

Features
- Hassle-free easy-to-start operation with all inclusive kit supplied
- Easy-to-manoeuver positioning of Fumes Extraction Arms
- Reliable & virtually maintenance-free Brushless DC Turbine
- Has low noise (< 60 dBA) in operation continuous running
- Filters design purifies hazardous gaseous/adhesive substances from fumes.
- Low running cost as normally low cost Pre-Filter mainly need replacement periodically as and when there is choking of fumes extraction.
- Readily availability of all spare parts from stock

FumePRO201-75LC Air Purifier is a reliable and really effective volume extraction type 2-operators ready-to-use Fume Extraction Air Purifier. It is designed for continuous and reliable working on production line. Its powerful and maintenance-free brushless turbine combined with electronic speed control, provides clean working environment at low maintenance cost. The electronic Speed Controller regulates air-flow volume continuously.

Details of 3-Stage Filters used in this Fume Extraction Air Purifier System

- **Stage I Pre-Filter**: The Pre-Filter filters the bigger size particles for prolonging the life of both Middle and Main Filters.
- **Stage II Middle Filter**: It filters coarse size fume particles to prolong life of expensive HEPA/Charcoal Filter
- **Stage III Main HEPA/Charcoal Filter**: This Filter is a combination of HEPA (filters fine size fume particles) and Activated Charcoal (absorbs harmful gas substances) Filters to provide clean air finally.

1. Normally Pre-Filter only needs periodic replacement when there is less suction of fumes.
2. These 3 Filters should never be washed nor should be cleaned with compressed air at all.
